

CITY OF SAN BERNARDINO MUNICIPAL WATER DEPARTMENT

IRRIGATION CONTROLLER INSTALLATION PROGRAM

ATTENTION HOMEOWNERS:

In an effort to assist you with conserving water, the San Bernardino Municipal Water Department (SBMWD) has partnered with Skydrop to provide smart water management irrigation controllers. Through this special offer, homeowners of properties within SBMWD's service area are eligible to receive a Skydrop smart irrigation controller and professional installation at **NO COST**. SBMWD has already paid for the basic equipment, installation, and set-up of the Skydrop Water Management System.

Supplies are limited!
SIGN UP TODAY

PROFESSIONAL INSTALLATION

A Skydrop professional will test your current irrigation system and set up your new EPA WaterSense certified controller. The controller uses your existing sprinkler wires so the install is quick and painless. The professional installer will input many zone specific factors in setting up your system, paired with the current weather forecast (via Wi-Fi) and determine just how much water your landscape needs. If it rains, it's hot or cloudy, your controller will automatically adjust.

Saving you water, time, and money.

FREE!

REAL-TIME EFFICIENT WATERING

The smart irrigation controllers automatically determine optimal watering schedules based on several factors including local weather conditions, soil type, plant type, sun exposure, and more. The easy to use interface is accessible manually through the controller, or by smartphone, tablet or computer.

SIGN UP TODAY

By using the smart watering features of the Skydrop Water Management System, the amount of water used for outdoor irrigation may be significantly reduced.

HOW DOES THE PROGRAM WORK?

There are no out of pocket costs to participate. The basic service has been paid in full by SBMWD. Installations and irrigation audits will be performed by Skydrop technicians and should take between 30 and 60 minutes. Participants must be homeowners of properties within SBMWD's water service area and must have a continuous Wi-Fi signal capable of reaching the irrigation controller. Eligible participants must sign terms of agreement in order to receive service.

This agreement gives representatives of Skydrop LLC permission to enter and to be on the Customer/Owner's property for the sole purpose of conducting one or more of the following: 1) irrigation system evaluation, 2) weather based irrigation controller installation, and 3) follow-up inspection.

The San Bernardino Municipal Water Department will provide to Customer a Skydrop irrigation system controller, and if requested an expansion pack. The Customer/Owner shall guarantee that the Skydrop irrigation controller and expansion pack (if applicable) are installed at the address provided above. Customer/Owner agrees to use the Skydrop equipment provided under this Agreement only at the address above for a minimum of 36 months from the date this Agreement is signed by Customer as indicated below. If the controller and expansion pack is removed from use at the address above the controller and expansion pack shall be returned to the Department immediately.

_____ **Owner Initials**

As part of the Skydrop Smart Watering System, the Customer shall register as a Skydrop customer using the email address above as part of a Skydrop Registered Account. The Customer's Skydrop Registered Account will be accessed and configured periodically by the San Bernardino Municipal Water Department and Skydrop representatives to customize and optimize the soil conditions, weather conditions, irrigation start time, and other parameters to maximize the irrigation efficiency of the Department's customers enrolled in this program. The property owner acknowledges that water savings are not guaranteed and in some cases may increase due to proper watering.

_____ **Owner Initials**

The Customer/Owner agrees to defend, indemnify, protect, and hold the San Bernardino Municipal Water Department and its agents, officers and employees harmless from and against any and all claims asserted or liability established for damages or injuries to any person or property which arises from or are connected with or are caused by the acts or omissions of the Customer/Owner or from conditions on the Customer/Owner's property; provided, however, that the Customer/Owner's duty to indemnify and hold harmless shall not include any claims or liability arising from the willful misconduct of San Bernardino Municipal Water Department, its agents, officers or employees in performing the work or services or supplying materials or equipment to the Customer.

_____ **Owner Initials**

I understand Skydrop LLC on behalf of San Bernardino Municipal Water Department is installing a Skydrop irrigation controller free of charge, except for a Wi-Fi signal booster (at \$20 each) and an outdoor cabinet (at \$35 each), if needed. To receive the benefits of the Skydrop Controller, I agree to grant permission to San Bernardino Municipal Water Department and/or Skydrop LLC to enter my residence solely for the purpose of installing the Skydrop controller and a Wi-Fi signal booster (if needed). I understand Skydrop is responsible for reviewing the conditions of the installation site prior to installation, to confirm the existing conditions are free from defect and will allow the installation of a Skydrop controller without modification or effort outside the standard installation. I understand that the Skydrop representative will conduct all installations per manufacturer's specifications and WILL NOT conduct any work outside the standard installation. I understand that Skydrop and San Bernardino Municipal Water Department are not responsible for pre-existing conditions that may impair or prevent the installation of Skydrop irrigation controller.
