HEATED UP

Convert to geothermal energy and **SAVE** up to 50 percent of the cost of heating your building.

SAN BERNARDINO is one of just a few communities offering geothermal energy to local businesses. The energy cost savings are significant. Users report a 30-50 percent savings in energy costs after geothermal conversion.

“During the first six months of operation of the geothermal system, the natural gas consumption at St. Bernardine Plaza is one-third what it was during the same period for the preceding two years.”

*Beverly Lassanske, Controller
Falkenberg/Gilliam & Associates, Inc.
Property Managers for St. Bernardine Plaza*

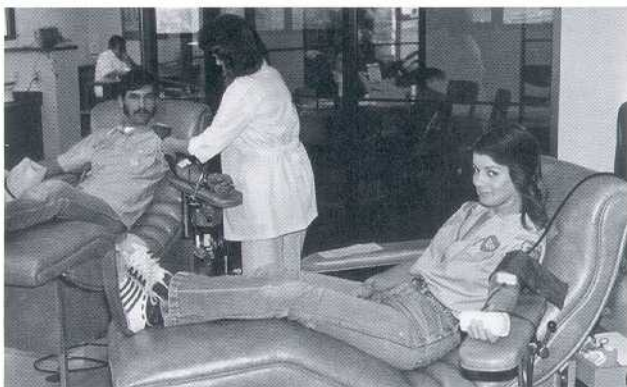

“In addition to an estimated \$600 per month savings, geothermal energy has generated a lot of employee pride. Our people think it's neat and have taken the time to mention it.”

*Robert Dennis, Facility Planner
Cal Trans, San Bernardino Office*

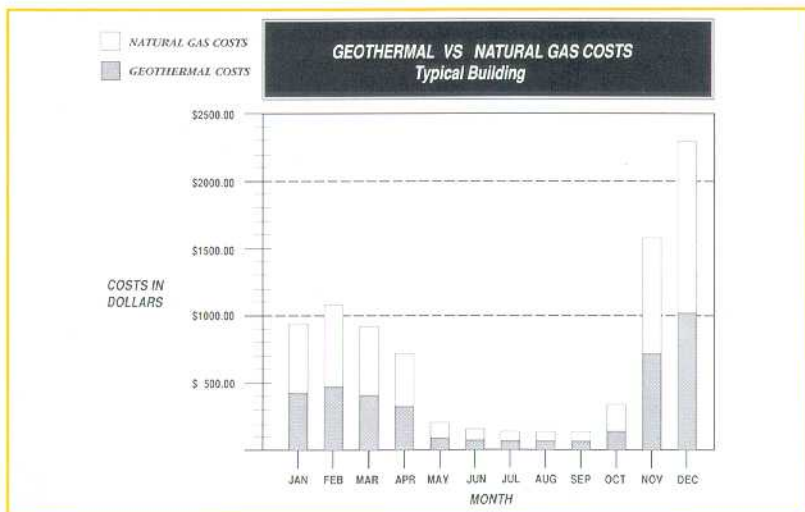

“With geothermal, our gas bill was almost cut in half. Savings run around 40 to 45 percent, and there’s no difference in the quality of the heating.”

*Bert Murphy, Energy Auditor
City Hall, San Bernardino*

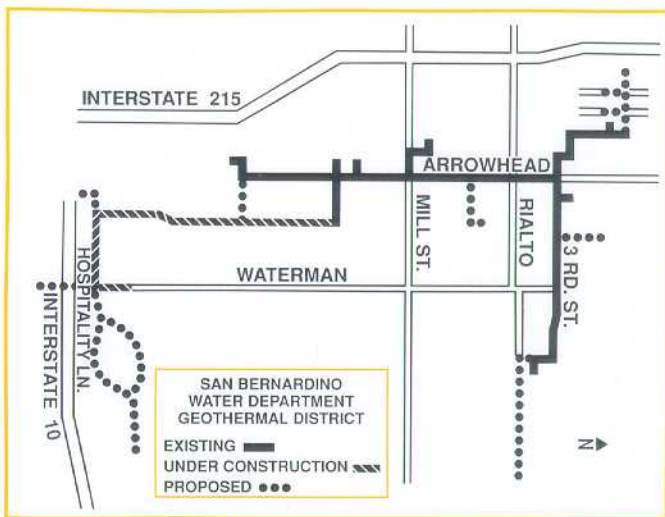

“We’re happy with the savings from geothermal. It’s around \$500 per month, about half what it was before we got geothermal three years ago. I’d recommend it to anyone.”

*Mac Yont, Maintenance Supervisor
The Blood Bank of San Bernardino and Riverside Counties*

The cost of heating your building with geothermal energy is roughly half the cost of natural gas. The dollar amount fluctuates from month to month but the percent of savings is consistent.

ELIGIBILITY QUIZ

If your answer is YES to the following questions, you could save up to 50% in natural gas.

Circle One:

- Yes No My building has a boiler for heating.
 Yes No Our monthly winter gas bill is usually in excess of \$250.
 Yes No We are located on or near the geothermal pipeline.
 (see map above)

The cost of converting your system for geothermal is insignificant compared to the savings. Payback periods range from 18 months to 5 years; 2 1/2 years is average. And you may also be eligible for financing.

CONVERT to Geothermal and SAVE

YES! I'd like a free estimate of my savings with geothermal.
